

## GAS-FIRED INFRARED HEATER GASOLEC G12

- + Direct heat to the chicken and litter
- + Creating comfort zones
- + Reliable
- + Up to 3.500 DOC, depending on the height and environmental temperature
- + Low gas consumption
- + Easy operation and installation
- + On/off operation with pilot flame on G12 Asco and G12 Maxi
- + Available with automatic ignition G12E
- + Can easily be connected to a climate control system or thermostat (G12 Asco and G12E)
- + G12 Maxi has its own thermostat, no electricity needed!

## TECHNICAL SPECIFICATIONS

- ⊕ Capacity 12 kW
- ⊕ Consumption 864 gr/h at 100% capacity, standby (pilotflame 25 gr/h) G12 Asco & G12 Maxi
- ⊕ Available in 3 versions:
  - ⊕ G12 Asco with pilotflame for central thermostat
  - ⊕ G12 Maxi with pilotflame and mechanical thermostat
  - ⊕ G12E with automatic ignition for central thermostat
- ⊕ Stainless steel, can be cleaned with high pressure water and/or detergents
- ⊕ Weight: 6.5 Kg (G12 Asco)
- ⊕ Standard with Heavy Duty filter (washable)
- ⊕ Made in Holland

Gas consumption for 1 kW: 1kW = 866kcal = 3460BTU/h, I3P / G30 72 gram of Propane/h, I2E / G20 0.090m<sup>3</sup>/h of Natural Gas High, I2L / G25 0.108m<sup>3</sup>/h of Natural Gas Low
